OVERVIEW

Woodwork not only engages the body and mind but also the heart of the maker. Essentially the most preferred medium for crafts for ages. Be it an intricate carving session by a Master Craftsman or a simple Stress Busting DIY activity, joy is guaranteed while working with wood. This course will give out the hacks for working with Wood like a Pro.

OBJECTIVE

An excellent medium for making Toys, Games and Figurines, wood is extremely lightweight, has good machinability and is a benefactor of joy for working with hands. The course aims to Develop sensitivity and feel towards wood as a material, help understand playful nature and friendliness of wood, it's Application in Design, help understand methods for proper handling of tools, contribute towards a way for freedom and self-expression through working with hands

METHODOLOGY

Taking up a favorite traditional toy, game, or figure/ form and Interacting with it to understand its Playfulness & Form (What makes the toy "Playful") Exploring the world of imagination to create Formal & Structural variations for your beloved toy/ game/figure. Before diving hands-on, creating POC's and sketches to aid in making imagination an exact reality by bridging the gap and finally, it's time for some magic to make it Life-like! (Shhh! The Spell is "Details") "Woodworking Minus Patience equals Firewood" - Anonymous. Worried about the environmental aftermath? We ensure the efforts made towards the success of the course are Sustainable. Timber is provided by sustainable plantations in a manageable manner.
