# RIVER OF MEMORIES

## INSTRUCTOR

### SUBHA DAS MOLLICK

A media teacher and a documentary filmmaker, Subha Das Mollick has explored a variety of subjects through her films. A post graduate in Physics, she switched over to media after more than ten years of teaching Physics at the undergraduate level.

She is an avid writer of reviews and analytical pieces, a designer of workshops and courses and an explorer of alternate pedagogical practices. She has also designed and conducted several "Cinema in the Classroom" workshops with teachers.

## CO- INSTRUCTOR

### SUBHADEEP SENGUPTA

Subhadeep Sengupta is among the first batch graduates from SRFTI. Works as a freelance audio engineer in the audio visual medium. He has won National Award for Best Sound Design in a feature film in the year 2010. Besides being an engineer, he is also an educationalist, teaching in various reputed institutions and delivering lectures in different workshops and seminars.

## OVERVIEW

'River of Memories' is a multimedia project that takes off from a bucket of personal memories on water, expressed in multifarious ways - a sketchy collection of words to a fully fleshed out story: a pen and ink sketch to a photograph: a few chords of the guitar to an old movie song. These expressions will find a place on a 10 metre long fabric signifying the river of memories. The river will 'flow' through a soundscape depicting nature and culture, wilderness and civilization. The personal will merge into collective on the undulating fabric of the flowing river.

## KEY WORDS

Memories, Multimedia, Soundscape, Flowing fabric
